

DRYline® MP+ Drainage

An all-purpose building wrap for all seasons.

A building wrap that withstands the toughest conditions. Manufactured from non-perforated fabrics, DRYline MP+ Drainage protects against vapor intrusion, even in hot and humid weather. So vapor escapes even if it builds up inside. Plus, with our exclusive BROADCAST® Custom Printed Advertising, you can display any custom logo or advertising message on your DRYline wrap — which can be ordered in the industry’s smallest quantities.

Drainage Barrier

Achieves 98% drainage efficiency under the ASTM E2273 Standard Test Method.

Water-Resistant

Compliant with North American water-resistance standards for building construction and may be used with a variety of code-compliant sidings such as fiber cement, wood, and stucco.

Breathable

Reduces the potential for condensation buildup.

UV Resistant

With a higher UV exposure rating than other brands, it may be left exposed for up to 180 days.

Broadcast Custom Printed Advertising

How businesses can build a big name for themselves. With BROADCAST Custom Printed Advertising, it's easy to turn your building into a billboard. We'll put any logo or advertising message on any wrap. Builders, lenders, or any business can promote itself using multiple, vivid colors and a large surface area, with a small roll order minimum.

Value

Offers the most value for strength and performance vs. national competitive brands.

Strength

More durable than the competition, and endures tough jobsite conditions.

Durable

A better option for demanding jobsites.

Translucent

Makes it easy to quickly locate studs, openings, and corners.

Energy-Efficient

Recognized as an air barrier material for energy efficiency standards.
